To:

my mistake; I meant 303

The Cement Creek drainage area comprises about 21 square miles. Cement Creek was listed on Colorado's 1998 303(d) list for aluminum, cadmium, copper, iron, and lead. The Animas River downstream of Cement Creek was listed on Colorado's 1998 303(d) list for zinc.

Sabrina Forrest---10/13/2011 02:11:25 PM---Thanks Bob, What are you referring to with regard to 308 of water?
Sincerely,

From: Sabrina Forrest/R8/USEPA/US

I made couple editorial suggestions, where I thought things were a little repetitious or too technical/HRSish

[attachment "R8 Upper Cement Creek Narrative Summary draftw.rmcomments.doc" deleted by Sabrina Forrest/R8/USEPA/US] .

Please look at; if you prefer the original, that's ok, too. But I think we need to either say something more about 308 of water or say something like the contaminants listed under the water program.
